Zoovet AQUAVITS

VITAMIN/MINERAL SUPPLEMENT

For aquatic animals

Zoovet AQUAVITS are vitamin/mineral tablets specially formulated to supplement the diet of marine mammals and other large fish-eating animals, including crocodiles, sea turtles, penguins and sharks. Each tablet contains Vitamins A, D3, B1, B12, C, pantothenic acid, choline, folic acid, inositol, iron, iodine and biotin.

Fed regularly as part of a properly formulated diet, **Zoovet AQUAVITS** are intended to replace the vitamins lost during the storage and thawing of fish. This is essential for maintaining general health, disease resistance and to achieve breeding condition. Care in the use of supplements is needed to avoid direct toxicity or an imbalance of nutrients.

Dosage: Our recommendations for the dose of **Zoovet AQUAVITS** are as follows:

Dolphins	1-3 Zoovet AQUAVITS daily (adult x 3, juvenile x 2, weanling x 1)
Pinnipeds	1-3 Zoovet AQUAVITS daily (depending on size – consult your veterinarian)
Large penguins and pelicans	½ Zoovet AQUAVITS daily
Large crocodilians	1 Zoovet AQUAVITS at each feeding
Sea turtles	1 Zoovet AQUAVITS per 20kg body-weight per week. Can be spread across the week.
Large sharks	1 Zoovet AQUAVITS per 20kg body-weight per week.

Zoovet AQUAVITS are manufactured to pharmaceutical standards on behalf of IZVG LLP and are available to purchase in tubs of 850 tablets.

Composition:

Dibasic Calcium Phosphate Dihydrate, Microcrystalline Cellulose, Magnesium Stearate, Silicone Dioxide.

Analytical Constituents:

Sodium 0.13%, Crude Fibre 10.7%, Crude Ash 19.8%, Crude Oil 14.55%, Crude Protein 18.8%.

Product Specification per tablet:
