Zoovet ELASMOBRANCH

VITAMIN/MINERAL SUPPLEMENT

For sharks and rays

Zoovet ELASMOBRANCH tablets are a vitamin/mineral supplement to assist in counteracting dietary deficiencies in sharks and rays fed on frozen fish or invertebrate diets. They are intended to replace the vitamins lost during the storage, freezing and thawing of natural foods.

The formulation is similar to Zoovet AQUAVITS but with lower levels of fat-soluble vitamins and higher levels of iodine and vitamin C, which are essential to protect against goitre and promote strong cartilage growth in animals.

Dosage: The tablets should be inserted into the food fish before the sharks and rays are fed.

1 x Zoovet ELASMOBRANCH tablet per 250g
of fish fed

Composition:

Calcium Carbonate, Microcrystalline Cellulose, Magnesium Stearate, Silicone Dioxide.

Analytical Constituents:

Sodium 0.04%, Crude Fibre 9.7%, Crude Ash 41.8%, Crude Oil 3.02%, Crude Protein 5.0%.

Product Specification per tablet:

Vitamin A	4000IU
Vitamin D3	450IU
Vitamin E	40IU
Vitamin C	400mg
Vitamin B12	3.75mcg
